

# CLEAN HEAT RHODE ISLAND Heat Pump Installer Network (HPIN)

## Join the Clean Heat Rhode Island HPIN

Rhode Island Energy Participating Contractors will be temporarily enrolled in the Clean Heat Rhode Island HPIN starting on the program launch date. Within three months, Participating Contractors must provide the necessary documentation and sign the agreement to remain enrolled in the Clean Heat Rhode Island HPIN.

### REQUIRED TRAINING:

Within the first year of participation, all primary installers must provide a certificate of completion for training provided by a heat pump manufacturer.

- Visit [CleanHeatRI.com/HPIN](http://CleanHeatRI.com/HPIN) to see the full list of requirements

### REQUIRED LICENSES, CERTIFICATIONS & DOCUMENTATION:

- EPA Section 608 Technician Certification, Type I, II or Universal Refrigerant Handling Certification
- Signed copy of Participating Contractor Agreement
- Certificate of Comprehensive General Liability Insurance
- A Master plumber license if installing heat pump water heaters
- A Master 1 or 2 refrigerant license
- W-9

### BENEFITS OF PARTICIPATION:

- Access to Clean Heat Rhode Island incentives
- Listing on the Clean Heat Rhode Island program website
- Marketing materials & sales tools
- Regular e-newsletters & program updates
- Notification of upcoming industry training and installation best practices
